

Create tomorrow

MINT MANAGEMENT TECHNOLOGIES

Fast Track DC Migration with Cloud 3.0

Reap the benefits of the local cloud and Fast-Track Data Center Migration with Cloud 3.0

Challenges

This public cloud infrastructure is currently hosting the largest multi-regional software ecosystems - but moving to public cloud in Africa has been historically very difficult as a result of :

- High latencies;
- Data sovereignty concerns;
- Volatile costs resulting from fluctuating currencies.

Ideal Solution

With Africa's first world-class Public Cloud Data Centres being opened in South Africa organisations can now reap the full benefits of the public cloud thanks to the Africa Azure Data Centre!

Desired Outcomes

- Superior performance due to minimal latency;
- Only pay for what you use;
- Optimised Utilisation across different usage models;
- World-class compliance;
- Take advantage of modern PaaS services;
- Cloud application integration;
- Leverage existing on-premise investments and leverage the power of the cloud through a Hybrid Implementation.

Mint Management Technologies – DC Migration with Cloud 3.0

Why Fast-Track DC Migration with Mint’s Cloud 3.0 Approach?

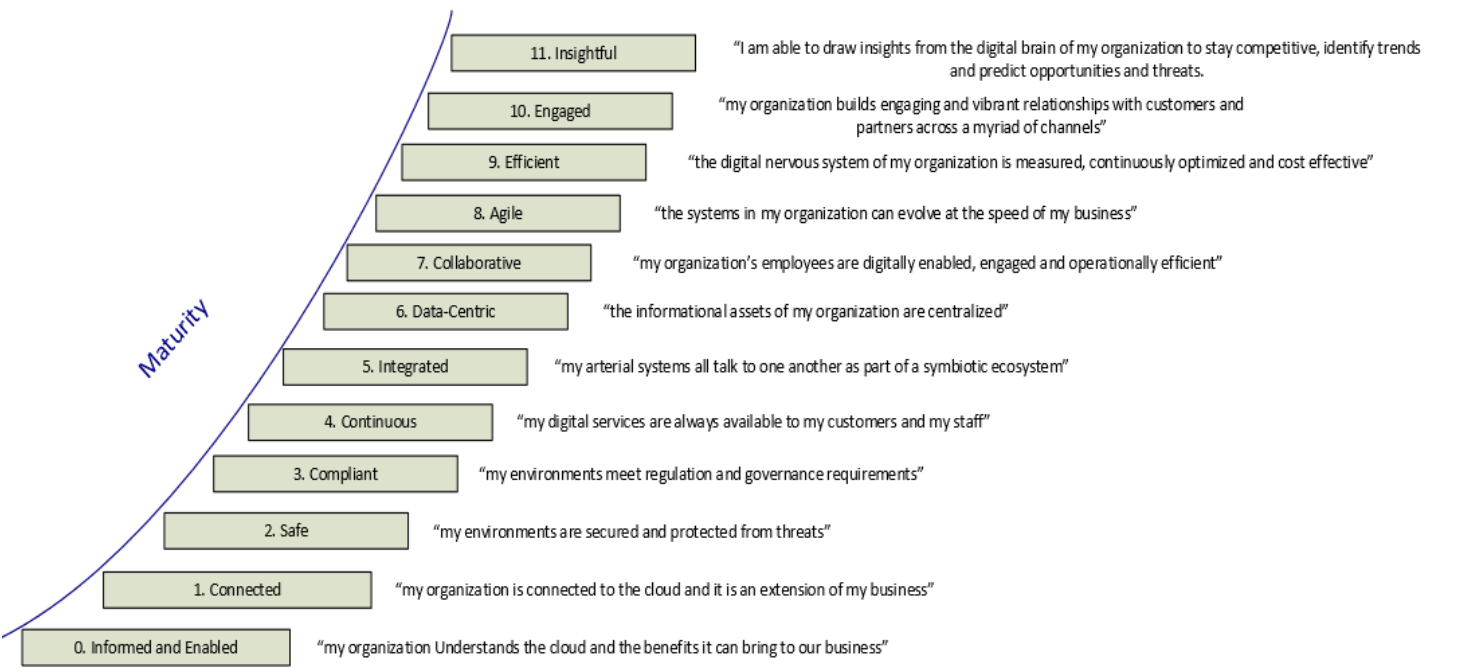

Assess Your Unique Requirements

Cloud enablement assessment
Industry-specific applications
Economic Business Utilization

Create a Cloud Roadmap Suited to your Unique Requirements

Access the benefits of the scalable cloud
Build a transformative cloud strategy
Reap the rewards of cloud investment

Reap Insights from our Cloud Maturity Model

One of the main reasons our clients do business with us is because of the flexibility we offer with doing business.

Mint Management Technologies – DC Migration with Cloud 3.0

Why Mint Group?

Mint Management Technologies is a global IT consultancy recognised as a top 1% global systems integrator. The organisation is also a member of the prestigious Inner Circle for Microsoft Dynamics and recruits best-of-breed global IT skills and capabilities with two of only 144 ALM Rangers and 1 of only 160 PCSA's globally employed as part of the Mint Group of companies. As the dominant solutions provider to Africa's financial services conglomerates, the company enables better business by digitally leading its clients through Customer Centricity with Dynamics 365, Employee Engagement with Office 365, Intelligent Insights with AI and Cognitive Computing, and Smarter Systems with Azure in the digital space.
