# DevTest to Modern DevOps

Cloud migration, DevOps modernisation and change management to ensure user adoption

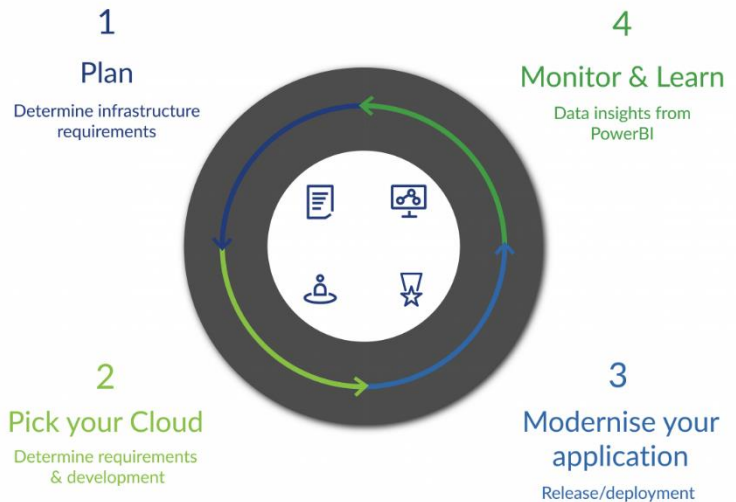

Allow Mint to transform your organisation to embrace a DevOps-culture, which embraces change and reliability, and unlock brave new horizons through the Azure Cloud.

## Why Modern DevOps?

- Enable Growth in a Digital-First World
- Streamline Planning and Work Tracking
- Automate Build and Release Strategies

**Hosting SAP on an Azure platform is a perfect fit from a cost and flexibility perspective and we are very excited about the migrations.**  
- Collaborit Group CEO

Utilise DevTest – Journey to Modern DevOps if you:

- Want to automate development processes.
- Want to adopt agile processes to ensure efficiency.
- Need to ensure faster deployment of solutions with continuous feedback and value delivery to customers.
- Seek collaboration and a holistic view of cross-functions, responsibilities, tools and themes with regard to software development.
