# SAP on Azure

The Cloud you can trust to run the ERP solution you rely on

With Microsoft Azure you get the freedom to build and deploy wherever you want, using the tools, applications, and frameworks of your choice.

Reliably run your mission critical SAP and other workloads on the cloud platform built for enterprise.

## Why SAP on Azure?

- Enables productivity and increase in ROI
- Constant Innovation
- Maximising Security
- Minimising Risk
- Cloud Scalability
- Agility

### Bringing Cloud Scalability and Agility to SAP

Access flexibility, cost savings and superior performance compared to what private cloud hosting can provide.

### Enabling Unparalleled Performance and Efficiency

Get the broadest choice and industry leading performance when running your SAP workloads on Azure.

### Maximising Security and Minimising Risk with Azure

Azure is the most trusted cloud, globally, providing a robust, resilient, and reliable environment for your SAP applications.

Hosting SAP on an Azure platform is a perfect fit from a cost and flexibility perspective and we are very excited about the migrations.
